Subject: Re: Long Leaf Update
Attachments: Long Leaf Trading Update.Pdf

Greetings Tim,

I trust you are well. **Please see attachment of an update of our trades.** We have closed out 26 out of our past 30 trades for a profit. This attachment shows results for our most conservative client, who would only take on one contract per position. It can be scaled up. I have clients that take as much as 15 contracts per position. Ever since we have implemented our *Edge Strategy* we have seen amazing results. That is due to a combination of how we manage these positions throughout and all the uncertainty surrounding these markets (Brexit, US/China trade war, Hong Kong violence, and Middle east turbulence.)

I suggest we setup a brief 10 minute phone call to discuss this attachment, go over some education by updating you on our strategies and showing you how we manage risk throughout the life of our positions. Let me know a good day and time for you.

Kind Regards,

Checkout my recent commentary on MarketWatch:

Recent Client Testimonial:

"I heard about Long Leaf Trading on the internet and decided to invest some funds in April, 2019. They do small trades and are conservative with my funds. After they demonstrated that they could make me money with successful trades I deposited 3x more cash in my account in June, 2019. From April 30th to July 31st, 2019, 56 trades were closed at a profit and only 9 were at a loss. They trade in commodities such as wheat, corn, soybeans, and in currencies such as Japanese yen, Aussie dollar, etc. They do long short trades looking for discrepancies in contracts and volatility is their friend. Once trades are in place they manage them. James Hatzigiannis handles my account and keeps me informed about all my trades and contacts me before making
